

Hi,

I trust this finds you and your families well. In the present situation concerning COVID19, every aspect of our lives must go on.

Real estate sales and purchases is a top priority for families wanting/needing change. Whether they are downsizing, upsizing, or simply relocating, I'm sure you will agree that showing a home with the latest tools available has never changed. What has changed is the opportunity for you/agents to hold that all important open house.

Fortunately, with where our technology is today, we now have the option of a "Live Stream Open House". Realtor.ca has come up with a unique way to offer this for your potential buyer and I believe together with a REVTour (Real Estate Video Tour) you will have the next best option of showing your listing without actually being there.

Imagine your potential buyers, virtually walking through the listing with you, live from the comfort of their own home/office and you as their agent, interacting with them while viewing the walkthrough together, answering any questions and offering pertinent information they need regarding this particular property, all in real time while everyone stays safe.

Through [Realtorlink.ca](https://www.realtorlink.ca) you can schedule a day and time for your "Live Stream" open house and advertise it to your target buyers.

Below is a sample of a REVTour that you would schedule to stream live with your potential buyers and interact with them in real time.

["Live Stream"](#) virtual open house (imagine live streaming this property while exchanging information/comments with your viewers all in real time.)

(this is a sample of an actual REVTour)

Contact me with any questions/comments and please, stay safe.
